SUBJECT : A&TD Monthly Report Submission -
February 1975

PERSONNEL BRANCH

1. The Office reorganization which resulted as an outcome of the PMCD survey and a number of internally initiated reorganizational changes were approved and published on the recent 28 February 1975 issuance of the Staffing Complement. Several items from the PMCD survey are still unresolved, but at this point we feel that there is light at the end of the tunnel

2. Vacancy notices were prepared and published on 11 professional and 6 clerical positions during the month. We received 63 professional and 9 clerical responses to these notices.

3. The DDA's handbook draft on Directorate personnel policies has been through a series of rewrites and the Director of Security attended an editing session with other Sub-Group Heads on 21 February 1975. It is anticipated that the handbook will be ready for publication the latter part of March 1975.

4. [REDACTED] was accepted into the Security Career Service as an investigator trainee on 3 February. [REDACTED] who came to us from the OCI Watch Office, will be assigned to [REDACTED] until the Agent training course begins in September.

5. The Candidate Selection Panel mentioned in last month's report got into full swing during February and to date has reviewed approximately 100 files and interviewed some 15 candidates.

6. We continue to have a problem with clerical shortages within the Office and reported a requirement for eight people to the OP/Clerical Staffing Branch during February. Projections indicate that the situation will get worse before we get some relief from the normal summer hiring cycle.

7. Copies of a Notification of Exempt/Non-Exempt Status under provisions of the Fair Labor Standards Act have been made available to each OS employee and their supervisor and one copy placed in the Admin file.

8. The Staffing Complement format has been revised by the Office of Personnel to include new information which should make it more useful to management. This means that a number of new items have been computerized which increases the different types of information which can be retrieved by computer run.

B&F BRANCH

1. Financial Analysis Numbers (FANs) were assigned and a Resource Package established for the European and Latin American Regional Security Staffs.

2. The FY-1976 Congressional Budget was submitted to the Comptroller 20 February 1975. It was prepared at the personnel and fund levels provided by the DD/A. After adjustment for pay act costs, reduction in travel and other costs the total OS Budget for FY-1975 is [REDACTED] and for FY-1976 STATINTL it is [REDACTED]. Travel limitations, imposed by P.L. 93-554, recognized in the FY-1975 column of the above budget have since been repealed by P.L. 94-6 making it permissible to re-program for additional travel within our current operating allowance.

3. Chief, B&F met with Chief, DDS&T/SMS [REDACTED] and two STATINTL members of the Defense Contract Audit Agency and briefed them on use of certain DDS&T contractors as conduits for [REDACTED] STATINTL funding. The DCAA auditors were subsequently provided information on amounts funded, etc. As part of the regular audit, accounts of each of the ten contractors currently being used will be examined to assure proper treatment of [REDACTED] funds. STATINTL One company audited so far was found clean.

SUMMARY REPORT - FEBRUARY 1975

HIGHLIGHTS

1. On 10 February 1975, a representative of the Central U.S. Registry, The Pentagon, Washington, D. C., conducted the annual inspection of the Central Intelligence Agency's Treaty Organization Sub-Registries. Things were deemed to be well run from a security standpoint.

2. The final proposal for the automation of the Agency's TOP SECRET Document Control Program has been received from the Office of Joint Computer Support. Office of Security holdings in this area will be the initial data base input as a pilot program.

3. Approval has been granted for an employee of the Information Systems Security Group to attend a full-time thirty day course at the IBM Systems Science Institute, Los Angeles, California. The course, entitled "Systems Science I", will provide an additional member of ISSG a solid foundation and broad knowledge in data processing.

4. Three contractor computer facilities were surveyed during the reporting period. A determination was made that all three facilities afford good security control of their computer operations.

5. Meetings have been held with Office of Research and Development, Office of Joint Computer Support, and Office of Security representatives to coordinate research in computer science and computer security.

6. A member of Information Systems Security Group accompanied an Office of Research and Development representative on a visit to [REDACTED], to request a feasibility study concerning utilization of the Security Access Control System (Badge Machine) in terminal access controls and data output operations within OJCS.

25X1A

7. Steps were taken to return to stock accountable property presently held but not used by the Information Systems Security Group.

8. A recommendation was made to Community On-Line Intelligence System (COINS) Sub-System Manager to deny

25X1A

9. The Chief, Information Systems Security Group made a presentation on Software Security and Terminal Access Controls to the weekly Office of Security Staff Meeting on 27 February.

10. Requests for remote terminal approvals dramatically increased during the reporting period.

Trends and Highlights

February 1975

1. Responsibility for the records management functions of the Office of Security was transferred from the Security Records Division to the Policy and Plans Group effective 3 February..

2. The Program Call(FY1976 Operating Plan/FY1977 Program Plan/Program Projections for FY1978-81) was received and assigned to pertinent components of the Office of Security for compiling pertinent data. A study was forwarded seeking the concurrence of the DDA and Comptroller to reduce the number of Office of Security Resource Packages from eleven to three in number.

3. The components of the Office of Security were solicited for their communications requirements for the period FY1977-1981. A memorandum summarizing these requirements was forwarded to the Office of Communications through the DDA.

4. A statement of draft objectives of the Office of Security to be tracked during FY1976 and FY1977 at the DCI and Directorate levels was submitted to the DDA. With one exception, they are scheduled for completion in FY1976. The exception involves the updating of [REDACTED]

over a five year period. Other objectives pertain to the reduction of hard-copy records of the Office of Security, the operational viability of Security Access Control System, an automatic security validation of vehicles entering the Head-

5. The new amendments to the Freedom of Information Act became law 19 February. Another twenty-four requests were received during the month and numerous meetings were held to determine applicable policy for all Agency elements to follow. A Special Agent was assigned TDY from the [REDACTED] Office to assist in meeting the demands of FOIA activities within the ten day time-frame set by the new amendments.

2. Trends noted during the reporting period included the following:

a. In January and February, there has been a noticeable drop in request for operational support from the DDO. Accounting for this drop could be one of the following or a combination of both reasons:

(1) Preoccupation in the DDO with responses to the President's Commission investigating the Agency; or

25X1A

b. Special correspondence has increased dramatically in that it has doubled since December 1974. EAB actions remain at the average level of production, however, due to a drop in security and guidance actions and manuscript review actions. The increase in special correspondence can probably be directly attributed to the publicity we are receiving these days in the media.

Work level remains constant, however, due mainly to increases in requests by the OGC [redacted] and research activities relative to the investigation of the Agency by the President's Commission.

25X1A

3. Highlights noted during the reporting period included the following:

a. Milestone statistics for January and February reflect 1.8 applicant cases completed per man per day, .2 percent less than the projected figure of 2.0 cases per man per day, and a report production rate of 39 percent as compared to the MBO projected figure of 37.5 percent.

Two security officers went to [REDACTED] and conducted a residential security and personal safety survey which also included a study of the station's emergency planning. 25X1A

A security officer travelled to [REDACTED] at the specific request of the Chief of Station in order to establish a personal and residential security program and to review the station's emergency plans. 25X1A

Summaries of occupational accidents, fires, injuries and illnesses involving Agency personnel and property were prepared and forwarded to the Department of Labor in compliance with the Occupational Safety and Health Act and Executive Order 11807. Initial analyses of the injuries and illnesses indicate an increase in the number and severity of these incidents; however, for the second consecutive year, there were no fatalities.

A suitcase declared suspect by the Security Duty Office was radiographed at the Southwest entrance, Headquarters building. This brings this year's total to seventeen suspect items processed by the Safety Branch.

TECHNICAL SECURITY DIVISION

HIGHLIGHTS FOR FEBRUARY 1975

25X1A Fourteen students representing the Air Force, CIA, FBI, NIS, State, Secret Service, USIA and the White House Communications Agency successfully completed the three-week [REDACTED] Course (ITC 01-19) at the Interagency Training Center.

Technical support was provided for the DCI in three appearances before Congressional committees.

25X1A Two members of the Division traveled to NSA's Friendship Annex to give a presentation on [REDACTED] 25X1A [REDACTED] to 47 members of the Senior Military Cryptologic Supervisor's Course.

Members of the Division have commenced an extensive test and evaluation program on several microwave detectors. These detectors are off-the-shelf commercial devices and are being tested for possible use in selected areas. A relatively new ultrasonic detector, manufactured by SONTRIX, is also being evaluated for Agency use.

A one-week training course in the installation and repair of alarm systems was presented for the five security officers processing for overseas assignments to the Regional Security Staffs in [REDACTED] 25X1A

25X1A [REDACTED], an engineer from [REDACTED], installed 25X1A the software programming on the Automated Alarm Monitoring System computer. The system is currently undergoing acceptance testing. All the initial functions and output data appear satisfactory to date.

Responding to a request from ORD, a special RF investigation was performed along the George Washington Parkway. The area of concern was near the Headquarters building.
